

Regina Bypass Traffic Update

(as of November 1, 2017)

On Saturday, November 4, the westbound off-ramp and eastbound on-ramp from Highway 1 to the Pilot Butte overpass opens to traffic. This provides an additional access from westbound Highway 1 to the Emerald Park/White City business area, including Great Plains Industrial Park.

Please note westbound traffic on Highway 1 will not be able to access Pilot Butte from the overpass at this time. Access to Pilot from Highway 1 westbound is available from either the Highway 48 overpass or Gravel Pit Road.

Full opening of the Pilot Butte overpass is scheduled for 2018.

With the Regina Bypass now open from Balgonie to Highway 33/Arcola Avenue, you will also notice the following changes:

- The opening of the Pilot Butte bridge to crossing traffic and the North and South Service Roads.
- The closing of the median crossing at Great Plains Road.
- The closing of the median crossing at Gravel Pit Road.

For the latest traffic restrictions related to the construction of the Regina Bypass, please follow Regina Bypass Partners on Twitter @reginabypass and regularly check the Highway Hotline at www.hotline.gov.sk.ca.
