

Construction set to begin on South Service Road upgrades in Emerald Park

In the coming days, Regina Bypass Design Builders (RBDB) will begin work to upgrade the South Service Road near South Country Equipment. The work will include widening and repaving the road.

During construction, motorists can expect short delays due to single lane closures and alternating traffic, but access to all businesses will be maintained. Our traffic control team will be on site controlling the flow of traffic. Work will continue until mid-May, weather permitting.

We thank you for your patience and understanding as we work to improve the safety of the road network in the area over the long term.

For the latest traffic restrictions or information related to the Regina Bypass Project, please follow Regina Bypass on Twitter @reginabypass, visit www.reginabypass.ca, call our 24-hour contact centre at 1-844-679-4828 or check the Highway Hotline at <http://holine.gov.sk.ca>.
