

## **March 5, 2013 Resident Letter - Correction**

March 5, 2013

Dear Resident:

### **Re: Notice to Disclose Personal Information**

This is to notify you that the Town wishes to share contact information with the mechanical contractor for the sole purpose of scheduling water meter installation appointments with property owners directly.

It is anticipated that the water meter installation work will begin in April/May 2013. Stormy's Mechanical & A/C from Pilot Butte was awarded the contract and as such, the Town has agreed to supply owner contact information, subject to the residents of Pilot Butte being notified of the intention to disclose this information.

A significant number of home, cell and business phone numbers were obtained from the Agreement for Water Services for the purpose of scheduling sewer line locate and line boring appointments, which cannot be used for a different purpose unless residents have been notified.

**Please reply by March 22<sup>nd</sup>** to the Town via email at [pbadminassist3@sasktel.net](mailto:pbadminassist3@sasktel.net) or call (306) 781-6251 **if you do not want your personal contact information shared** with the Town's mechanical contractor.

As a brief update to your central water project:

- the water treatment plant is on schedule to be operational by mid to late March
- line boring crews are planning to start work in Contract B in April
- flushing of water service lines into the homes are expected to start in mid to late March
- water connection to homes and water meter installation are estimated to be started in April

Further details will be sent by resident newsletter and notices when the timelines are confirmed, within the next couple weeks.

Sincerely,

Darlene Woloshyn,  
Town of Pilot Butte  
Project Manager
