Drinking Water Quality and Compliance

The Water Security Agency and the Ministry of Environment requires that at least once each year waterworks owners provide notification to consumers of the quality of water produced and supplied as well as information on the performance of the waterworks in submitting samples as required by a Minister's Order or Permit to Operate a waterworks. The following is a summary of the **Town of Pilot Butte's** water quality and sample submission compliance record for the **year of 2024**. This report was completed on **8-Jan-2025**. Readers should refer to Water Security Agency's "Municipal Drinking Water Quality Monitoring Guidelines, June 2015, EPB 502" for more information on minimum sample submission requirements. Permit requirements for a specific waterworks may require more sampling than outlined in the department's monitoring guidelines. If consumers need more information on the nature and significance of specific water tests, for example, "what is the significance of selenium in a water supply", more detailed information is available from: http://www.hc-sc.gc.ca/ewh-semt/pubs/water-eau/index_e.html.

Water Quality Standards

Bacteriological Quality

Parameter/Location	Limit	Regular Samples Required	Regular Samples Submitted	# of Positive Regular Submitted (Percentage)
Total Coliform	0 Organisms/100 mg/L	52	52	0
E. coli	0 Organisms/100 ml	52	52	0
Background Bacteria	Less than 200 Organisms/100 mL	52	52	0

The owner/operator is responsible to ensure that 100 per cent of all bacteriological samples are submitted as required. All waterworks are required to submit samples for bacteriological water quality; the frequency of monitoring depends on the population served by the waterworks.

Water Disinfection

Chlorine Residual in Distribution System for Test Results Submitted with Bacteriological Samples

Parameter	Minimum Limit (mg/L)	Free Chlorine Residual Range	Total Chlorine Residual Range	# Tests Required	# Tests Submitted	# Adequate Chlorine (Percentage)
Chlorine Residual	0.1 mg/L free OR 0.5 mg/L total	0.45-0.98	0.50-1.03	52	52	52 (100%)

A minimum of 0.1 milligrams per litre (mg/L) free chlorine residual OR 0.5 mg/L total chlorine residual is required at all times throughout the distribution system unless otherwise approved. A proper chlorine submission is defined as a bacteriological sample submission form with both the free and total chlorine residual fields filled out. An adequate chlorine is a result that indicates that the chlorine level is above the regulated minimums. An adequate chlorine may be counted even if the chlorine results were submitted incorrectly. A waterworks is required to submit chlorine residual test results on every bacteriological sample they submit.

Water Disinfection

Free Chlorine Residual for Water Entering Distribution System from Waterworks Records-From Water Treatment Plant Records

Parameter	Limit (mg/L)	Test Level Range	# Tests Performed	# Tests Not Meeting Requirements
Free Chlorine Residual	at least 0.1	0.27-1.26	365	0

A minimum of 0.1 milligrams per litre (mg/L) free chlorine residual is required for water entering the distribution system. Tests are normally performed on a daily basis by the waterworks operator and are to be recorded in operation records. This data includes the number of free chlorine residual tests performed, the overall range of free chlorine residual (highest and lowest recorded values) and the number of tests and percentage of results not meeting the minimum requirement of 0.1 mg/L free chlorine residual.

Turbidity – From Water Treatment Plant Records

Parameter	Limit (NTU)	Test Level Range	# Tests Not Meeting Requirements	Maximum Turbidity (NTU)	# Tests Required	# Tests Performed
Turbidity	1.0	0.02-0.83	0	0.17	732	Continuous

Turbidity is a measure of water treatment efficiency. Turbidity measures the "clarity" of the drinking water and is generally reported in Nephelometric Turbidity Units (NTU). All waterworks are required to monitor turbidity at the water treatment plant. The frequency of measurement varies from daily for small systems to continuous for larger waterworks.

Chemical – Health Category

Parameter	Limit MAC (mg/L)	Limit IMAC (mg/L)	Sample Results	# Samples Exceeding MAC/IMAC	# Samples Required	# Samples Submitted
Arsenic	0.010		0.0009	0	0	1
Barium	1.0		0.0007	0	0	1
Boron		5.0	0.1	0	0	1
Cadmium	0.005		<0.00015	0	0	1
Chromium	0.05		<0.00019	0	0	1
Fluoride (avg.*)	1.5		<0.05	0	0	1
Lead	0.01		0.00007	0	0	1
Nitrate (avg.*)	45.0		<0.2	0	0	1
Selenium	0.01		<0.00113	0	0	1
Uranium	0.02		0.00011	0	0	1

Substances within the chemical health category may be naturally occurring in drinking water sources or may be the result of human activities. These substances may represent a long-term health risk if the Maximum Acceptable Concentration (MAC) or Interim Maximum Acceptable Concentration (IMAC) is exceeded. All drinking water supplies are required to monitor for substances in the Chemical-Health category, the frequency of monitoring depends on the population served by the waterworks. Some waterworks will add fluoride to drinking water as a means to aid in the prevention of dental decay.

General Chemical

Parameter	Aesthetic Objectives* (mg/L)	Sample Results (average)	# Samples Required	# Samples Submitted
Alkalinity	500	23.8	1	1
Bicarbonate	No Objective	29	1	1
Calcium	No Objective	<1	1	1
Carbonate	No Objective	0	1	1
Chloride	250	0.9	1	1
Conductivity	No Objective	48	1	1
Hardness	800	7	1	1
Magnesium	200	<1	1	1
PH	No Objective	7.7	1	1
Sodium	300	10	1	1
Sulphate	500	1	1	1
Total dissolved solids	1500	44	1	1

All waterworks serving less than 5000 persons are required to submit water samples for SE's General Chemical category once every two years if a ground water source or once per three months every second year if a surface water or blended surface/groundwater source. The General Chemical category includes analysis for alkalinity, bicarbonate, calcium, carbonate, chloride, conductivity, hardness (as CaCO₃), magnesium, sodium, sulphate and total dissolved solids.

The last sample for General Chemical analysis was submitted on **23-Jan-2024**. Sample results indicated that there were no exceedences of the provincial aesthetic objectives for the General Chemical category.

*Objectives apply to certain characteristics of or substances found in water for human consumptive or hygienic use. The presence of these substances will affect the acceptance of water by consumers and/or interfere with the practice of supplying good quality water. Compliance with drinking water aesthetic objectives is not mandatory as these objectives are in the range where they do not constitute a health hazards. The aesthetic objectives for several parameters (including hardness as CaCO₃, magnesium, sodium and total dissolved solids) consider regional differences in drinking water sources and quality.

More information on water quality and sample submission performance may be obtained from:

Thank You

We are so grateful for the visits, calls, cards, prayers and gifts of food and friendship we have received following the tragic death of our son Evan on December 28, 2024. Being surrounded by love and support will make the difficult days ahead a little easier. We have lived in Pilot Butte our entire married life and our children were raised here. We feel so fortunate to be part of such a caring community. Evan will always be in our hearts.

A Celebration of Evan's Life will be held at the Regina Funeral Home on May 24, 2025 at 10:00a.m. This will be followed by a lunch and get together in the Pilot Butte Community Hall. In lieu of flowers, anyone wishing to make a donation can send to Canadian Mental Health Association, Saskatchewan Division.

GROUNDHOG DAY

is a popular North American tradition observed on February 2. If the groundhog emerges from its burrow on this day and sees its shadow, it will retreat to its den and winter will continue for six more weeks. If the groundhog does not see its shadow spring will arrive early.

Golden Sunset Club - February 2025

The Golden Sunset Club (at the north-east end of the Town of Pilot Butte and rink complex) is open every Tuesday and Thursday from 1-4 PM. We play various card games and always stop for coffee and snacks. Any Pilot Butte Seniors are invited to come. It is a great way to meet new friends and learn about the Golden Sunset Club activities.

The Club offers a soup and sandwich lunch on the first Tuesday of every month, the next one being Tuesday February 4th at noon (come a little early). The cost is \$10 per person and includes a choice of soup, sandwiches, lots of desserts, and tea and coffee. After lunch you are invited to stay and play cards, make new friends and reconnect with old ones.

A crib tournament is held on the 3rd Saturday of each month, with cash prizes and a delicious lunch. Spots fill up quickly, so if you are interested in participating call Neil Veroba at 639-571-2702.

New members are always welcome to join. We have a variety of regular activities and we are planning new activities as well.

If you are looking for a great facility to rent for a shower, birthday party, family gathering, crafts, exercise class or other events, our club is available. Contact Lynette Nagy at 306-539-8281 or Mary Ross at 306-539-5187 for rates, availability and other information.

Pilot Butte Lions Club

Meetings - Meetings are held monthly every 4th Tuesday.

Next meeting: February 25, 2025 at the Golden Sunset Club starting at 7:30pm.

We will once again be selling chocolate Easter bunnies. The rabbits are 100gm. There will be milk chocolate, white chocolate, and also sugar free. The price is the same as previous, \$5.00 dollars each. Please contact Ray Cordick to purchase at 306-530-7693.

New members always welcome, ladies & gentlemen!

Parent Presentation from PVSD

Prairie Valley School Division is pleased to welcome Madison Cameron from the Centre for Trauma Informed Practices for two special presentations for parents and caregivers. All Prairie Valley families with students of any age who might use electronic devices or social media are invited. These parent/guardian-focused sessions will take place on February 10 and 11 at 7:00 p.m. The February 10 session is being offered in person and virtually at Bert Fox Community High School while the February 11 session is being offered virtually. There is no cost to attend either session. Further details will be made available through Prairie Valley schools.

"Don't attend this for yourself. Do it for your children and be amazed at what you did not know.

As insightful a parent I believed I was, Dwayne helped me to discover gaps in my approach.

It is a 'can't miss' opportunity for one to right the ship.

Every parent should come to this session".

Schedule For February, 2025

2nd- Communion & Fellowship Lunch

10th @7pm-Women's Movie Night

21st @7pm-Prayer Night

Women's weekly Bible Study Mondays @1 p.m.

Upcoming Events in days to come

***Back to Basics** (4 weeks): For those new in faith, those wanting a refresher or those just curious. Dates to be decided.

***More than Marriage Seminar**: A Saturday set aside for married or single couples. Date to be decided.

***Men's Bible Study**: If interested please call the church.

Do everything in love.

1 Corinthians 16:14

Love is a choice and an attitude. If you love someone you listen with your heart not just your ears, you speak from your heart not just from your mouth, and you respond with your heart not just by reaction. If every thought attitude and action was intentionally done with love, the world would begin to change, and that change would begin in you.. Have a wonderful February!

RAISING FUNDS AND AWARENESS FOR CHILDHOOD CANCER

CHILDHOOD CANCER CANADA FOUNDATION

EcoGenX

SILVER for GOLD SOCIETY

This program gives the community the opportunity to raise funds for childhood cancer research. Family, friends and relatives can collect tabs from beverage cans and students can bring the tabs to school, OR there is now a drop off bin at 256 8th Street. This is a very easy way for everyone to help out.

WCM WHITE CITY MUSEUM

THE WHITE CITY MUSEUM IS LOOKING FOR DONATIONS OF ARTIFACTS FROM THE SURROUNDING AREA TO ADD TO OUR COLLECTION.
