Year 36 Issue 6

Submissions and Payment

Please remember to send your submissions no later than 5 pm on the 20th. Anything received after cannot be guaranteed to be inserted into the issue. Your continued co-operation is appreciated. **PLEASE EMAIL the News and viewsS @ newsandviews@sasktel.net or drop it off at the Pilot Butte Town Office.**

As always, a huge THANK YOU to the sponsors who have renewed their squares or are new to our backpage—We truly cannot publish without your generous support!

Thanks also to those businesses who pay to take out a monthly ad at various times of the year.

The News and viewsS appreciates all those who help in getting the 10 issues printed and out to the residents. It takes a community! If you are interested in sponsoring our newsletter, please email us newsandviews@sasktel.net or call 306.781.4547

Thank You to our Back Page Sponsors

Remember to patronize our back page sponsors. Thanks to these sponsors who have renewed their square (s) for another year:

Thank you to the Town of Pilot Butte and the Pilot Butte Recreation Department for funding the newsletter.

NEW: Water and Sewer Line Repair Policy - 03-2023

The new policy can be found on the Town Website:

<https://pilotbutte.ca/local-government/bylaws-and-policies/>

SEWAGE BLOCKAGE - If you suspect you have a sewer blockage it is the responsibility of the property owner to contact the Town recommended Plumber (**Roto Rooter 306-359-3996**) to ensure location of the blockage or break is clearly defined. Video inspection footage will be required. A plumber must video each affected line to determine where the blockage is located.

The property Owner is responsible for the cost of maintenance or repair of the line from the building structure right up to and including the tap connecting to the sewer main, including any blockages, breakages or collapses. The Town of Pilot Butte is responsible for a failure at the main line, which is owned by the Town of Pilot Butte. If a blockage originates from the residence or business, the Owner will be responsible for the costs associated with clearing the line. Tree roots, or any other impediments, originating on private property, which affect the pipe's integrity on Town-owned property, are the responsibility of the Owners.

Sewer line back-ups and blockages can be caused by a variety of issues including but not limited to: Excessive grease, root infiltration of line, infrequent use (frozen lines), breaks in the lateral sewer line and obstructions. Obstructions may include, but are not limited to: rags/fabric, 'flushable' wipes, household debris, personal hygiene products, and diapers, toys, disinfecting wipes or paper towels.

It is the responsibility of the property owner to investigate and arrange for the clearing of blockages as well as the repair to pipe defect on their property. It is the Town's responsibility to repair pipe defect on Town property.

Drinking Water Quality and Compliance

The Water Security Agency and the Ministry of Environment requires that at least once each year waterworks owners provide notification to consumers of the quality of water produced and supplied as well as information on the performance of the waterworks in submitting samples as required by a Minister's Order or Permit to Operate a waterworks. The following is a summary of the **Town of Pilot Butte's** water quality and sample submission compliance record for the **year of 2022**. This report was completed on **17-Jan-2022**. Readers should refer to Water Security Agency's "Municipal Drinking Water Quality Monitoring Guidelines, June 2015, EPB 502" for more information on minimum sample submission requirements. Permit requirements for a specific waterworks may require more sampling than outlined in the department's monitoring guidelines. If consumers need more information on the nature and significance of specific water tests, for example, "what is the significance of selenium in a water supply", more detailed information is available from: http://www.hc-sc.gc.ca/ewh-semt/pubs/water-eau/index_e.html.

Water Quality Standards

Bacteriological Quality

Parameter/Location	Limit	Regular Samples Required	Regular Samples Submitted	# of Positive Regular Submitted (Percentage)
Total Coliform	0 Organisms/100 mg/L	52	52	0
E. coli	0 Organisms/100 ml	52	52	0
Background Bacteria	Less than 200 Organisms/100 mL	52	52	0

The owner/operator is responsible to ensure that 100 per cent of all bacteriological samples are submitted as required. All waterworks are required to submit samples for bacteriological water quality; the frequency of monitoring depends on the population served by the waterworks.

Water Disinfection

Chlorine Residual in Distribution System for Test Results Submitted with Bacteriological Samples

Parameter	Minimum Limit (mg/L)	Free Chlorine Residual Range	Total Chlorine Residual Range	# Tests Required	# Tests Submitted	# Adequate Chlorine (Percentage)
Chlorine Residual	0.1 mg/L free OR 0.5 mg/L total	0.08-0.92	0.26-0.96	52	52	52 (100%)

A minimum of 0.1 milligrams per litre (mg/L) free chlorine residual OR 0.5 mg/L total chlorine residual is required at all times throughout the distribution system unless otherwise approved. A proper chlorine submission is defined as a bacteriological sample submission form with both the free and total chlorine residual fields filled out. An adequate chlorine is a result that indicates that the chlorine level is above the regulated minimums. An adequate chlorine may be counted even if the chlorine results were submitted incorrectly. A waterworks is required to submit chlorine residual test results on every bacteriological sample they submit.

Water Disinfection

Free Chlorine Residual for Water Entering Distribution System from Waterworks Records-From Water Treatment Plant Records

Parameter	Limit (mg/L)	Test Level Range	# Tests Performed	# Tests Not Meeting Requirements
Free Chlorine Residual	at least 0.1	0.22-0.84	365	0

A minimum of 0.1 milligrams per litre (mg/L) free chlorine residual is required for water entering the distribution system. Tests are normally performed on a daily basis by the waterworks operator and are to be recorded in operation records. This data includes the number of free chlorine residual tests performed, the overall range of free chlorine residual (highest and lowest recorded values) and the number of tests and percentage of results not meeting the minimum requirement of 0.1 mg/L free chlorine residual.

Turbidity – From Water Treatment Plant Records

Parameter	Limit (NTU)	Test Level Range	# Tests Not Meeting Requirements	Maximum Turbidity (NTU)	# Tests Required	# Tests Performed
Turbidity	1.0	0.03-0.89	0	0.89	Continuous	Continuous

Turbidity is a measure of water treatment efficiency. Turbidity measures the "clarity" of the drinking water and is generally reported in Nephelometric Turbidity Units (NTU). All waterworks are required to monitor turbidity at the water treatment plant. The frequency of measurement varies from daily for small systems to continuous for larger waterworks.

Chemical – Health Category

Parameter	Limit MAC (mg/L)	Limit IMAC (mg/L)	Sample Results	# Samples Exceeding MAC/IMAC	# Samples Required	# Samples Submitted
Arsenic	0.010		0.0012	0	1	1
Barium	1.0		0.0014	0	1	1
Boron		5.0	0.1	0	1	1
Cadmium	0.005		<0.00015	0	1	1
Chromium	0.05		<0.00019	0	1	1
Fluoride (avg.*)	1.5		<0.05	0	1	1
Lead	0.01		0.00007	0	1	1
Nitrate (avg.*)	45.0		<0.2	0	1	1
Selenium	0.01		<0.00113	0	1	1
Uranium	0.02		0.00040	0	1	1

Substances within the chemical health category may be naturally occurring in drinking water sources or may be the result of human activities. These substances may represent a long-term health risk if the Maximum Acceptable Concentration (MAC) or Interim Maximum Acceptable Concentration (IMAC) is exceeded. All drinking water supplies are required to monitor for substances in the Chemical-Health category, the frequency of monitoring depends on the population served by the waterworks. Some waterworks will add fluoride to drinking water as a means to aid in the prevention of dental decay.

General Chemical

Parameter	Aesthetic Objectives* (mg/L)	Sample Results (average)	# Samples Required	# Samples Submitted
Alkalinity	500	40.3	1	1
Bicarbonate	No Objective	49	1	1
Calcium	No Objective	6	1	1
Carbonate	No Objective	0	1	1
Chloride	250	1.1	1	1
Conductivity	No Objective	111	1	1
Hardness	800	27	1	1
Magnesium	200	0.02	1	1
PH	No Objective	7.8	1	1
Sodium	300	12	1	1
Sulphate	500	11.4	1	1
Total dissolved solids	1500	84	1	1

All waterworks serving less than 5000 persons are required to submit water samples for SE's General Chemical category once every two years if a ground water source or once per three months every second year if a surface water or blended surface/groundwater source. The General Chemical category includes analysis for alkalinity, bicarbonate, calcium, carbonate, chloride, conductivity, hardness (as CaCO₃), magnesium, sodium, sulphate and total dissolved solids.

The last sample for General Chemical analysis was submitted on **18-Jan-2022**. Sample results indicated that there were no exceedences of the provincial aesthetic objectives for the General Chemical category.

*Objectives apply to certain characteristics of or substances found in water for human consumptive or hygienic use. The presence of these substances will affect the acceptance of water by consumers and/or interfere with the practice of supplying good quality water. Compliance with drinking water aesthetic objectives is not mandatory as these objectives are in the range where they do not constitute a health hazards. The aesthetic objectives for several parameters (including hardness as CaCO₃, magnesium, sodium and total dissolved solids) consider regional differences in drinking water sources and quality.

Information about Coyotes

Safety Tips for Coyotes

- Keep unattended cats and dogs indoors or in completely enclosed runs, especially at night. Do not assume that a fence will keep a coyote out of your backyard.
- Never feed coyotes, deer, or other wildlife. Feeding wild animals may endanger your family and neighbours as it lures coyotes into neighbourhoods.
- Remove coyote attractants, including pet food, pet waste, fallen fruit, dirty barbecue grills, and unsecured trash or compost.
- Accompany your leashed pet outside. Make sure you turn on outdoor lights if it is dark, and check your backyard for unexpected wildlife.
- If you encounter a coyote, yell, clap your hands, whistle, and try to make yourself look large. And whatever you do, do not run away or turn your back on a coyote.
- Have noisemakers, like whistles and horns, on hand to scare away coyotes that may enter your yard.
- If you encounter a coyote, do not allow it to get between yourself and your pet or child.
- If a coyote is in the area, do not leave children unsupervised.
- Keep dogs on short leashes while walking outside.

GRIFFIN DRAMA

Over 60 students have already started rehearsals for One-Act Plays at Greenall. Students will be performing three plays – Alky, The Actor's Nightmare, and Law & Order: Fairy Tales Unit – at Greenall on March 29 and 30 before performing these plays at Regionals in Wolseley in April. Alky is a dramatic play about the dangers of alcohol abuse. The Actor's Nightmare is a mistaken identity comedy about one man's misadventures in the theatre. Law & Order: Fairy Tales Unit brings the classic TV franchise to comedic life in a magical world. Several students are assisting in roles such as Student Director and Stage Manager, and all students and staff are very excited about their roles!

NICOLE'S PRESCHOOL

FALL 2023 - 2024 PRESCHOOL REGISTRATION!

Registration for 2023-2024 preschool classes for children ages 3, 4, or 5 years old is currently underway. Only a few spots remain. Time slots are given on a first come, first serve basis. Please email nicolespreschool@sasktel.net if you are interested in registering your child. A Parent Handbook will be mailed to you with a detailed description of the program. Thank you.

JANUARY!

Happy New Year everyone! It has been a very cold and snowy winter so far but it didn't shake our spirits at preschool. Instead we embraced all the magic and wonders of winter for the entire month of January. The children explored the characteristics of winter, winter activities and the types and habits of animals during this season. For example, does a dog or a gopher hibernate? What animal can play hide and seek (or camouflage itself) the best in the snow? A white rabbit or a brown bear? It was lots of fun finding out the answers to these questions using books, an iPad or animal figurines to check our guesses! And for those poor birdies who decided to stick around this winter we decided to make them a cereal bird feeder to hang on our trees at home.

The month of January ended with a focus on how people stay warm in the winter. The story of "Sneezy the Snowman" by Maureen Wright and the book "The Mitten" by Jan Brett were wonderful springboards to help us examine the topic of winter clothes. We role-played the story sequence, counted, sorted and even used real mittens to paint with! Until next month stay warm everyone!

LV CHAIR YOGA

In LV chair yoga traditional yoga poses are adapted to be done while seated on a chair. While it might look a little different, the benefits of a session of chair-based yoga are the same as a mat-based yoga session. **LV yoga isn't just stretching on a chair, it is yoga on a chair.** Each chair pose is demonstrated with different levels of flexibility. This means that **LV chair yoga is inclusive and accessible for all.** Regular practice can help improve flexibility, mobility, strength, posture, and balance. Each class will include a warm up, a dynamic sequence of poses, and a mindful cool down.

Kim Kozak will be instructing this course. She has been a certified yoga instructor for 10 years. After a skiing injury prevented her from doing mat-based yoga, Kim discovered the benefits of a chair-based yoga practice. **The best thing she discovered is that you can use chair yoga in your daily life.** Whether you take a few minutes to do some chair yoga at your kitchen table before your morning coffee, or you break up long days of sitting at an office desk with a few poses.

Developed by Lakshmi Voelker-Binder in 1982, LV chair yoga is practiced all over the world and is used by the Mayo Clinic in its wellness programs. As Lakshmi says "get fit where you sit"™. Transform how you look at fitness and try something new! Chair yoga is for everyBODY!

Hybrid Yoga Class

This class will combine chair and mat yoga.

Each class will include a warm up, a dynamic sequence of poses, and a mindful cool down.

Our dynamic sequence will begin with yoga poses seated on a chair. Each chair pose will be demonstrated with different levels of flexibility. This means people of all ages and fitness backgrounds can adapt each chair-based posture to suit their fitness needs and goals. Levels of flexibility help ensure postures are practiced safely and effectively on the chair.

While it might look a little different, the benefits of chair-based yoga are the same as mat-based postures. This class will use postures created by Lakshmi Voelker-Binder. Her method, known as LV chair yoga, is practiced all over the world and is used by the Mayo Clinic in its wellness programs.

After we work with chair-based postures, options will be given to transition these postures onto a mat. Participants will choose whether they continue on the chair or move onto their mat based on their own comfort level.

Get Your Garden On!!!

The Pilot "Butte"ification Community Garden Beds are up for grabs again this year! There are 20 beds on offer, spread over 4 locations and each measure 3' W x 8' L (16 are 12" high and 4 are 24" high).

There are rain barrels available to help with your watering needs. We are asking for a small fee per bed this year, \$15, to help cover the on-going enhancement of the soil (2 bags of compost per bed will be added).

If you are interested, please submit your name, contact info, number of beds wanted and preferred location by February 15/2023 via email: beautifypevents@gmail.com If email isn't possible, please call or text to 306 537 9462

If you're new to gardening and need some advice, let us know.

Remember, Spring is on the way! 🌸

Current locations of garden beds:

Hedley Park (4 beds)	Railway Ave and 9th St (6 beds, 4 are double height)
Way of Life Church (7 beds)	Discovery Ridge (3 beds)

Tuesday Classes from January 24th to March 14th will be led by Gaye Kreklewich

GOLDEN SUNSET CLUB - February 2023

Hard to believe January is behind us, weird weather though for Saskatchewan, we had so much fog and drizzling rain. Our club kept busy with our soup and sandwich lunch, our first crib tournament of 2023 and members only chili and bun lunch.

The center is open Tuesdays and Thursdays from 1 to 4 pm for card playing, and of course we always stop for coffee and a snack. If you are looking to get involved or meet new people, we are always happy to have new members.

Our February soup and sandwich will be on Tuesday the 7th, starts at 12 pm, it is \$10 per person and includes choice of soup, variety of sandwiches and delicious desserts, plus all the tea and coffee you can drink. Crib Tournament is Saturday the 18th, cash prizes and a delicious lunch makes it an enjoyable day.

Our club is available to rent, you can contact Kelly Frizzell @ [306-781-1091](tel:306-781-1091) or [306-527-7662](tel:306-527-7662). Rates, dates and other info will be given upon request.

Ladies Bible Study

Ladies Bible Study will resume Tuesday, February 14 at 1:30 pm at Way of Life Church. Please join anytime. You are welcome for some or all.

Please call Joyce at 306-539-2377 or email her at joycek@wayoflifechurch.ca for further information.

Ladies Night

Monday, February 6 at 7:00 pm.

Ladies, feel free to drop by and see what is in store for the evening.

Ash Wednesday Mass on February 22, 2023 at 8:30 PM

Ash Wednesday opens Lent, a season of fasting and prayer.

The ashes symbolize the dust from which God made us.

We are marked with ashes to humble our hearts and reminds us that life passes away on Earth.

Adoration – Thursdays 6:30 PM – 7:15 PM

A chance to spend time in silence with God

Stations of the Cross during Lent – Thursdays 7:15 PM

We, the parishioners of St. Agnes, strive to live by Gospel values.

We support each other with mutual respect and concern

as we journey together, in Faith, Hope, and Love towards the Kingdom of God.

Father Chinh Vu is available before mass between 8:20 and 8:50 on Sundays if you would like to meet or speak with him and to hear confessions.

For additional information, special mass dates and times and more information about St. Agnes Parish check us out at:

February is the month for warmth with the Polar Vortex approaching...warmth for others and warmth from caring and sharing.

Thank you to the Pilot Butte Angel families and friends who have donated yarn and fabric to enable Angel 4 Warmth Inc. to gift 15286 items of warmth to approved donor recipients in 2022.

An extra special thanks from Sharlene on behalf of the Angels for Warmth for the kindness shown by those dropping off fabric, yarn and most recently three bags of finished projects to the drop-off bin in the Pilot Butte Recreation Center Lobby.

The need for Angel items of warmth continues and the need for yarn and quilting cottons continues.

The **Angels Blue Drop Barrel** for yarn and quilting cottons is located in the **Recreation Centre Lobby**.

Angels 4 Warmth Inc. will meet for drop off of finished projects and pick up of supplies for future projects on Wednesday, February 1 at Holy Trinity Roman Catholic Church at 5020 Sherwood Drive, North entrance in Regina. New Angels are welcome. Please attach pairs of mitts, slippers, socks or any sets.

Angels 4 Warmth Inc. have set up an account at SARCAN for donations to help us provide the yarn and fabric supplies to keep our Angels' hands busy. At SARCAN the Account is Angels4Warmth Inc. and the Group Phrase is 'keep warm'. Tags are printed for the number of bags/boxes before placing them on the conveyor belt. Proceeds are e-transferred to the Angels account. SARCAN donations would be greatly appreciated.

Contact: Sharlene (Pilot Butte) at 306-790-7441 or Ruth (Regina) at 306-543-0583.

LET'S PUT ANNEXATION BEHIND US AND WORK TOGETHER.

After four years, the annexation hanging over the RM of Edenwold is now over. The Saskatchewan Municipal Board (SMB) rejected the Municipal Boundary Alteration Application by White City for almost 4000 acres of RM land, including all of Emerald Park.

With cooperation, both municipalities can prosper and be good partners to all the communities in the region.
