The Council Connection

Council meetings are **Open to the Public**. Meetings are normally held the **2nd and 4th MONDAY** of each month. If a Statutory Holiday falls on a regularly scheduled Council meeting Monday, the Council meeting will be held on the Tuesday. Unscheduled Special Meetings are advertised in advance for public attendance.

Your Elected Council Members who represent your interests are Mayor **Peggy Chorney**, along with Councillors **Teresa Blommaert**, **Jean Lowenberger**, **Bruce MacKenzie**, **Lydia Riopka**, **Nathan Schmidt**, **Ed Sigmeth**. Please contact the Town Office at 306.781.4547 should you have any questions or concerns on any issue.

The Council meetings for 2018 are as follows:

February 12, 26	March 12, 26	April 9, 23	May 14, 28
June 11, 25	July 9, 23	August 13, 27	September 10, 24
October 9 (Tues), 22	November 13 (Tues), 26	December 10	

You can contact us at 306.781.4547 or townofpilotbutte@sasktel.net We are also on the web at www.pilotbutte.ca. The site is updated on a regular basis. If you have any suggestions or comments on our website, please feel free to let us know. We welcome any and all feedback.

... that the Town of Pilot Butte makes use of the **Synrevoice** messaging system for **their residents?**

You may receive town news, announcements and information by telephone (old or new!), e-mail, or both. If you are a resident of the Town of Pilot Butte and **are not** receiving town notices and information using this system please contact the **Town Office at 781-4547 Option #1 or email the town at townofpilotbutte@sasktel.net**. You may opt out at any time.

BOULEVARD PARKING

However much we might like to avoid it, winter is here. That means snow removal. And **THAT** means that, for the winter season, residents must remove trailers and any other items stored or otherwise parked on the boulevards.

Vehicles that are being used every day may be parked on the boulevards for periods no longer than 72 hours starting at the end of October.

The 72- hour restriction does not mean that you drive your vehicle around the block and re-park it every 72 hours. It means that any vehicle not in regular use should not be parked on the boulevard for the winter months. The boulevards are provided to you for your convenience but they are Town property and, for ease of snow removal, the Town requires them to be unobstructed for the winter.

Properties in Violation will be ticketed by the Bylaw Enforcement Officer.

Please remember that there is NEVER parking allowed on the travelled portion of the road where no curb exists.

The Town thanks you in advance for your cooperation and appreciates your commitment to making Pilot Butte the BEST town in which to live.

SEWAGE BLOCKAGE - If you suspect you have a sewer blockage, the line **MUST** be checked by the Town Maintenance Staff. Payment may be refused (at the discretion of the Director of Public Works & Maintenance Operations) if this condition is not met. A maintenance man is on call after hours for emergencies and is available by calling **306-781-4547 Option 4**. Thank you.

Forever...in motion Program

The Town of Pilot Butte is offering Forever...in motion in the Community Hall (222 Diamond Place) on the following dates and times:

- ⇒ Last three Tuesday's of each month
- ⇒ January through March
- ⇒ Held from 10 am to 11 am

Forever...in motion provides and promotes safe physical activity opportunities for older adults living in Saskatchewan.

Drinking Water Quality and Compliance

The Water Security Agency and the Ministry of Environment requires that at least once each year waterworks owners provide notification to consumers of the quality of water produced and supplied as well as information on the performance of the waterworks in submitting samples as required by a Minister's Order or Permit to Operate a waterworks. The following is a summary of the **Town of Pilot Butte's** water quality and sample submission compliance record for the **year of 2017**. This report was completed on **7-Jan-2018**. Readers should refer to Water Security Agency's "Municipal Drinking Water Quality Monitoring Guidelines, June 2015, EPB 502" for more information on minimum sample submission requirements. Permit requirements for a specific waterworks may require more sampling than outlined in the department's monitoring guidelines. If consumers need more information on the nature and significance of specific water tests, for example, "what is the significance of selenium in a water supply", more detailed information is available from: http://www.hc-sc.gc.ca/ewh-semt/pubs/water-eau/index_e.html.

Water Quality Standards

Bacteriological Quality

Parameter/Location	Limit	Regular Samples Required	Regular Samples Submitted	# of Positive Regular Submitted (Percentage)
Total Coliform	0 Organisms/100 mg/L	53	53	2
E. coli	0 Organisms/100 ml	53	53	0
Background Bacteria	Less than 200 Organisms/100 mL	53	53	0

The owner/operator is responsible to ensure that 100 per cent of all bacteriological samples are submitted as required. All waterworks are required to submit samples for bacteriological water quality; the frequency of monitoring depends on the population served by the waterworks.

Water Disinfection

Chlorine Residual in Distribution System for Test Results Submitted with Bacteriological Samples

Parameter	Minimum Limit (mg/L)	Free Chlorine Residual Range	Total Chlorine Residual Range	# Tests Required	# Tests Submitted	# Adequate Chlorine (Percentage)
Chlorine Residual	0.1 mg/L free OR 0.5 mg/L total	0.44-0.91	0.54-0.98	53	53	53 (100%)

A minimum of 0.1 milligrams per litre (mg/L) free chlorine residual OR 0.5 mg/L total chlorine residual is required at all times throughout the distribution system unless otherwise approved. A proper chlorine submission is defined as a bacteriological sample submission form with both the free and total chlorine residual fields filled out. An adequate chlorine is a result that indicates that the chlorine level is above the regulated minimums. An adequate chlorine may be counted even if the chlorine results were submitted incorrectly. A waterworks is required to submit chlorine residual test results on every bacteriological sample they submit.

Water Disinfection

Free Chlorine Residual for Water Entering Distribution System from Waterworks Records-From Water Treatment Plant Records

Parameter	Limit (mg/L)	Test Level Range	# Tests Performed	# Tests Not Meeting Requirements
Free Chlorine Residual	at least 0.1	0.34-0.92	365	0

A minimum of 0.1 milligrams per litre (mg/L) free chlorine residual is required for water entering the distribution system. Tests are normally performed on a daily basis by the waterworks operator and are to be recorded in operation records. This data includes the number of free chlorine residual tests performed, the overall range of free chlorine residual (highest and lowest recorded values) and the number of tests and percentage of results not meeting the minimum requirement of 0.1 mg/L free chlorine residual.

Turbidity – From Water Treatment Plant Records

Parameter	Limit (NTU)	Test Level Range	# Tests Not Meeting Requirements	Maximum Turbidity (NTU)	# Tests Required	# Tests Performed
Turbidity	1.0	0.05-0.16	0	0.16	730	729

Turbidity is a measure of water treatment efficiency. Turbidity measures the "clarity" of the drinking water and is generally reported in Nephelometric Turbidity Units (NTU). All waterworks are required to monitor turbidity at the water treatment plant. The frequency of measurement varies from daily for small systems to continuous for larger waterworks.

Chemical – Health Category

Parameter	Limit MAC (mg/L)	Limit IMAC (mg/L)	Sample Results	# Samples Exceeding MAC/IMAC	# Samples Required	# Samples Submitted
Arsenic	0.010		0.0014	0	1	1
Barium	1.0		0.0008	0	1	1
Boron		5.0	0.1	0	1	1
Cadmium	0.005		<0.00015	0	1	1
Chromium	0.05		<0.00019	0	1	1
Fluoride (avg.*)	1.5		<0.05	0	1	1
Lead	0.01		<0.00007	0	1	1
Nitrate (avg.*)	45.0		<0.2	0	1	1
Selenium	0.01		<0.00113	0	1	1
Uranium	0.02		0.00011	0	1	1

Substances within the chemical health category may be naturally occurring in drinking water sources or may be the result of human activities. These substances may represent a long-term health risk if the Maximum Acceptable Concentration (MAC) or Interim Maximum Acceptable Concentration (IMAC) is exceeded. All drinking water supplies are required to monitor for substances in the Chemical-Health category, the frequency of monitoring depends on the population served by the waterworks. Some waterworks will add fluoride to drinking water as a means to aid in the prevention of dental decay.

**General Chemical**

Parameter	Aesthetic Objectives* (mg/L)	Sample Results (average)	# Samples Required	# Samples Submitted
Alkalinity	500	20.2	0	1
Bicarbonate	No Objective	25	0	1
Calcium	No Objective	1	0	1
Carbonate	No Objective	0	0	1
Chloride	250	1.1	0	1
Conductivity	No Objective	47	0	1
Hardness	800	7	0	1
Magnesium	200	<1	0	1
PH	No Objective	8.1	0	1
Sodium	300	8	0	1
Sulphate	500	2.5	0	1
Total dissolved solids	1500	40	0	1

All waterworks serving less than 5000 persons are required to submit water samples for SE's General Chemical category once every two years if a ground water source or once per three months every second year if a surface water or blended surface/groundwater source. The General Chemical category includes analysis for alkalinity, bicarbonate, calcium, carbonate, chloride, conductivity, hardness (as CaCO₃), magnesium, sodium, sulphate and total dissolved solids.

The last sample for General Chemical analysis was required in **2017** and submitted on **24-Jan-2017**. Sample results indicated that there were no exceedences of the provincial aesthetic objectives for the General Chemical category.

*Objectives apply to certain characteristics of or substances found in water for human consumptive or hygienic use. The presence of these substances will affect the acceptance of water by consumers and/or interfere with the practice of supplying good quality water. Compliance with drinking water aesthetic objectives is not mandatory as these objectives are in the range where they do not constitute a health hazards. The aesthetic objectives for several parameters (including hardness as CaCO₃, magnesium, sodium and total dissolved solids) consider regional differences in drinking water sources and quality.

Rural Crime Watch 158

The Rural Crime Watch 158 Executive would like to extend an invitation to all residents of the RM of Edenwold to join our Rural Crime Watch Group.

Rural Crime Watch 158 is a community driven, community led and police supported crime prevention and crime reduction collaborative group. Residents in the RM of Edenwold formed Rural Crime Watch 158, a non-profit organization, in the 1980's. We are resident volunteers with a vested interest in our community and a shared goal of safe homes and a safe community.

We utilize the social media platform "WhatsApp" as our means of real time communication to our membership of any unusual or suspicious activity in the community. We have a public Facebook page, Rural Crime Watch 158 that promotes safe practice initiatives, provides updates related to the organization and is a way to boost awareness of any issues within the community.

Our goal is to promote neighbours watching out for neighbours.

If you are interested in joining Rural Crime Watch 158 or require more information, please contact us at:

GREENALL would like to thank Flying J, Mission Ski Hill, and U of R Cougars for their generous donations to our school!

One Acts

Once again, Greenall is entering 2 One-Act plays in Saskatchewan Drama Association's Regional Festival. This year, we will be competing in Wolseley the on March 16th & March 17th. Auditions were held just before Christmas holidays and 32 students were cast. We are full swing into rehearsals. Our local show will take place at Greenall Gymnasium on Friday, March 9th at 7 pm. Tickets are \$10 (includes both shows).

Our two plays are: Check Please, Take 3 directed by Mrs. Melissa Hansford & Ms. Adina Leibel and The Moustache directed by Mrs. Jill Wiens, Mrs. Sue Parker and graduate Miss Quinne Craigie. Check Please, Take 3 is a romantic comedy in which two friends compare their worst dates. The Moustache is a dark comedy that explores the theme "absolute power corrupts absolutely".

PINK PANTHER was a huge success! We would like to thank everyone for their dedication and hard work to the production. Photo credit for photos below: Robyn Tocker

Thoughts on Forgiveness for 2018

Holding a grudge doesn't make you strong. It makes you bitter. Forgiving doesn't make you weak; it sets you free! Forgiveness doesn't excuse their behavior. It prevents their behavior from destroying your heart. Forgive others not because they deserve forgiveness, but because you deserve peace!!

Nicole's Preschool

JANUARY

Happy New Year everyone! The celebrating didn't end for the preschool children when they returned to class after the break. Our new year opened with a "Bash!".... a "Birthday Bash" to be specific. We examined the traditions and customs of birthdays at preschool. Learning how to give and receive a gift politely, writing Birthday cards, designing play clay and puffy paint "birthday cakes", and painting with balloons were just a few of the ways birthdays were highlighted.

The letters B (for Birthday), M (for Mud) and S (for Sticky) were also honoured as the children enjoyed a letter hunt and sang Happy Birthday to them. But this birthday song had a twist! Instead of the words we sang the birthday song tune with the sound that each letter makes. One evening I received a very special email and photo from one little girl who eagerly took her play clay birthday cake home, found a plastic letter "B" and had her mother light the candles as they sang Happy Birthday to the letter "B" once more! As I told her...it was the best birthday the letter "B" ever had and one of the best gifts her teacher ever had!

During the next two weeks of January things got a bit sticky....really sticky! We used our sense of touch to explore Icky Sticky Fun! As "Sticky Scientists" we were up to our elbows in mud, slime, toilet paper "clean mud", and finger paint. We painted with coloured corn syrup, squirted paint on the easels, wrapped tape on our feet for a Sticky Walk, and finger painted. We even counted bubble gums and had a bubble blowing contest where everyone was a winner of course! Last but not least we learned first aid for a cut or bruise and how to apply a sticky bandage. Whew! Lots of mess but the best fun even if my shoes still stick to the floor and there's slime in my hair!

See you next month!

At Home Fun: Borax Free Slime!

Ingredients:

- 2 (4 ounce) bottles washable school glue
- 1 to 2 drops liquid food coloring (optional)
- 1/4 cup glitter (optional)
- 1 teaspoon baking soda
- 2 to 3 tablespoons saline solution (ie. Contact lens solution), divided

Instructions

1. **Colour the glue (optional):** Pour the glue into a medium bowl. Stir in the food colouring and glitter, if desired
2. **Add the baking soda:** Add the baking soda to the glue mixture and stir until smooth.
3. **Add the contact lens solution:** Pour in 2 tablespoons of the contact lens solution & stir slowly. The mixture should begin to harden, becoming stringy.
4. **Mix until a ball forms:** Continue mixing slowly until a ball of slime forms.
5. **Knead by hand:** Pick up the slime and work between your two hands, until smooth. If the slime is particularly slimy, work in another 1/2 tablespoon of contact lens solution as needed.

The News and viewS would like to thank the Pilot Butte Recreation Board in conjunction with Sask

Lotteries Assistance Grant, for ongoing donation to our newsletter. The donation from the Rec Board enables the News and viewS to keep publishing and aids in local sports, culture and recreation advertising. Our continued thanks for the support!

The grant allows expansion of the News and viewS as necessary, with local content, assorted advertising and hopefully making it more appealing and interesting to read. The Town of Pilot Butte also provides financial funding as well as continued support in other ways. The Town has pledged to ensure that the News and viewS will publish, no matter what! Thank you to the Town for their continued support. It takes a tremendous financial worry off of the volunteers!

The R.M. of Edenwold also supplies the newsletter with financial funding and we use a portion of these funds to send copies of the newsletters to some R.M. residents. This financial windfall (for us!) is enabling us to produce a larger, more attractive newsletter for your enjoyment. We hope that we can continue to provide a quality of newsletter that makes us the "must read" item each month.

We truly appreciate the support.
