## The Council Connection

Council meetings are **Open to the Public**. Meetings are normally held the 2<sup>nd</sup> and 4<sup>th</sup> **MONDAY** of each month. If a Statutory Holiday falls on a regularly scheduled Council meeting Monday, the Council meeting will be held on the Tuesday. Unscheduled Special Meetings are advertised in advance for public attendance.

Your Elected Council Members who represent your interests are Mayor **Peggy Chorney**, along with Councillors **Teresa Blommaert**, **Jean Lowenberger**, **Bruce MacKenzie**, **Lydia Riopka**, **Nathan Schmidt**, **Ed Sigmeth**. Please contact the Town Office at 306.781.4547 should you have any questions or concerns on any issue.

The Council meetings for 2020 are as follows:

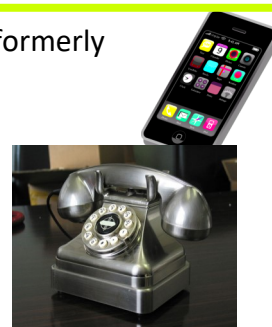

January 27	February 10 & 24	March 9 & 23	April 13 & 27	May 11 & 25
June 8 & 22	July 13 & 27	August 10 & 24	September 14 & 28	October 13 (Tues) & 26
November 9 & 23	December 14 & 28			

You can contact us at 306.781.4547 or [townofpilotbutte@sasktel.net](mailto:townofpilotbutte@sasktel.net). We are also on the web at [www.pilotbutte.ca](http://www.pilotbutte.ca). The site is updated on a regular basis. If you have any suggestions or comments on our website, please feel free to let us know. We welcome any and all feedback.

... that the Town of Pilot Butte makes use of the **Group West** (formerly Synrevoice) messaging system for **their residents**?

You may receive town news, announcements and information by telephone (old or new!), e-mail, or both. If you are a resident of the Town of Pilot Butte and **are not** receiving town notices and information using this system please contact the **Town Office at 781-4547 Option #1 or email the town at [townofpilotbutte@sasktel.net](mailto:townofpilotbutte@sasktel.net)**. You may opt out at any time.

### WINTER PARKING RESTRICTIONS

Yes, that season of snow removal is coming. While we have had a lovely long summer to enjoy our boulevard parking, residents are reminded that, from November 1 to April 30, there is a 72 hour restriction on parking on Town boulevards.

\*\* The boulevard is the Town-owned land between the edge of the paved street and your property line.

\*\* On streets with no curb, there is NO allowance for parking on the pavement at any time.

\*\* On streets with no curb, the boulevard may be used for parking of vehicles in daily use. The 72 hour restriction doesn't mean that you drive your vehicle around the block and re-park it. It means that you cannot store vehicles on the boulevard during the winter months. The same thing applies to paved streets where there is a curb.

\*\* On any street, whether there is or is not a curb, the Town appreciates that vehicles will not be parked either on the boulevard or on the pavement when snowfall is imminent. When operators are cleaning the streets, particularly after heavy snowfall, that snow has to go somewhere. The boulevards serve that purpose.

**The Town thanks all those residents who help us out by complying with the law. Please be assured that vehicles which are left on boulevards or on streets may be ticketed and /or towed.**

### Dog and Cat Control Bylaw

The Town would like to remind residents that all dogs and cats are not permitted to run at large and are required to be leashed or contained in their own yards.

The *Town's Dog and Cat Control Bylaw* is to promote the safety, health and welfare of the people and the protection of people and property in the Town of Pilot Butte and contains fines for offenders.

Please respect your neighbor's and the Town bylaws and restrain your pet when not in your yard. Please be reminded also, that there is a requirement for cleaning up after your pet.

The Town of Pilot Butte Dog and Cat Control Bylaw can be found on the Town's website <http://www.pilotbutte.ca> under the Local Government tab for your reference.

We thank you for your continued cooperation.

**SEWAGE BLOCKAGE** - If you suspect you have a sewer blockage, the line **MUST be checked by the Town Maintenance Staff. Payment may be refused** (at the discretion of the Town Maintenance Director) if this condition is not met. A maintenance man is on call after hours for **emergencies** and is available by calling **306-781-4547 Option 6**. Thank you.

### Drinking Water Quality and Compliance

The Water Security Agency and the Ministry of Environment requires that at least once each year waterworks owners provide notification to consumers of the quality of water produced and supplied as well as information on the performance of the waterworks in submitting samples as required by a Minister's Order or Permit to Operate a waterworks. The following is a summary of the Town of Pilot Butte's water quality and sample submission compliance record for the year of 2019. This report was completed on 7-Jan-2020. Readers should refer to Water Security Agency's "Municipal Drinking Water Quality Monitoring Guidelines, June 2015, EPB 502" for more information on minimum sample submission requirements. Permit requirements for a specific waterworks may require more sampling than outlined in the department's monitoring guidelines. If consumers need more information on the nature and significance of specific water tests, for example, "what is the significance of selenium in a water supply", more detailed information is available from: [http://www.ho-sc.gc.ca/ewh-semt/pubs/water-eau/index\\_e.html](http://www.ho-sc.gc.ca/ewh-semt/pubs/water-eau/index_e.html).

#### Water Quality Standards

##### Bacteriological Quality

Parameter/Location	Limit	Regular Samples Required	Regular Samples Submitted	# of Positive Regular Submitted (Percentage)
Total Coliform	0 Organisms/100 mg/L	52	52	0
E. coli	0 Organisms/100 ml	52	52	0
Background Bacteria	Less than 200 Organisms/100 mL	52	52	0

The owner/operator is responsible to ensure that 100 per cent of all bacteriological samples are submitted as required. All waterworks are required to submit samples for bacteriological water quality; the frequency of monitoring depends on the population served by the waterworks.

#### Water Disinfection

##### Chlorine Residual in Distribution System for Test Results Submitted with Bacteriological Samples

Parameter	Minimum Limit (mg/L)	Free Chlorine Residual Range	Total Chlorine Residual Range	# Tests Required	# Tests Submitted	# Adequate Chlorine (Percentage)
Chlorine	0.1 mg/L free OR					
Residual	0.5 mg/L total	0.47-0.72	0.55-0.90	52	52	52 (100%)

A minimum of 0.1 milligrams per litre (mg/L) free chlorine residual OR 0.5 mg/L total chlorine residual is required at all times throughout the distribution system unless otherwise approved. A proper chlorine submission is defined as a bacteriological sample submission form with both the free and total chlorine residual fields filled out. An adequate chlorine is a result that indicates that the chlorine level is above the regulated minimums. An adequate chlorine may be counted even if the chlorine results were submitted incorrectly. A waterworks is required to submit chlorine residual test results on every bacteriological sample they submit.

#### Water Disinfection

##### Free Chlorine Residual for Water Entering Distribution System from Waterworks Records-From Water Treatment Plant Records

Parameter	Limit (mg/L)	Test Level Range	# Tests Performed	# Tests Not Meeting Requirements
Free Chlorine Residual	at least 0.1	0.36-0.76	365	0

A minimum of 0.1 milligrams per litre (mg/L) free chlorine residual is required for water entering the distribution system. Tests are normally performed on a daily basis by the waterworks operator and are to be recorded in operation records. This data includes the number of free chlorine residual tests performed, the overall range of free chlorine residual (highest and lowest recorded values) and the number of tests and percentage of results not meeting the minimum requirement of 0.1 mg/L free chlorine residual.

#### Turbidity – From Water Treatment Plant Records

Parameter	Limit (NTU)	Test Level Range	# Tests Not Meeting Requirements	Maximum Turbidity (NTU)	# Tests Required	# Tests Performed
Turbidity	1.0	0.04-0.18	0	0.17	730	730

Turbidity is a measure of water treatment efficiency. Turbidity measures the "clarity" of the drinking water and is generally reported in Nephelometric Turbidity Units (NTU). All waterworks are required to monitor turbidity at the water treatment plant. The frequency of measurement varies from daily for small systems to continuous for larger waterworks.

#### Chemical – Health Category

Parameter	Limit MAC (mg/L)	Limit IMAC (mg/L)	Sample Results	# Samples Exceeding MAC/IMAC	# Samples Required	# Samples Submitted
Arsenic	0.010		0.0014	0	1	1
Barium	1.0		0.0008	0	1	1
Boron		5.0	0.1	0	1	1
Cadmium	0.005		<0.00015	0	1	1
Chromium	0.05		<0.00019	0	1	1
Fluoride (avg.*)	1.5		<0.05	0	1	1
Lead	0.01		0.00007	0	1	1
Nitrate (avg.*)	45.0		<0.2	0	1	1
Selenium	0.01		<0.00113	0	1	1
Uranium	0.02		<0.00011	0	1	1

Substances within the chemical health category may be naturally occurring in drinking water sources or may be the result of human activities. These substances may represent a long-term health risk if the Maximum Acceptable Concentration (MAC) or Interim Maximum Acceptable Concentration (IMAC) is exceeded. All drinking water supplies are required to monitor for substances in the Chemical-Health category, the frequency of monitoring depends on the population served by the waterworks. Some waterworks will add fluoride to drinking water as a means to aid in the prevention of dental decay.

Environment

#### General Chemical

Parameter	Aesthetic Objectives* (mg/L)	Sample Results (average)	# Samples Required	# Samples Submitted
Alkalinity	500	24.2	0	1
Bicarbonate	No Objective	30	0	1
Calcium	No Objective	2	0	1
Carbonate	No Objective	0	0	1
Chloride	250	1.1	0	1
Conductivity	No Objective	87	0	1
Hardness	800	9	0	1
Magnesium	200	<1	0	1
PH	No Objective	7.7	0	1
Sodium	300	9	0	1
Sulphate	500	4.5	0	1
Total dissolved solids	1500	49	0	1

All waterworks serving less than 5000 persons are required to submit water samples for SE's General Chemical category once every two years if a ground water source or once per three months every second year if a surface water or blended surface/groundwater source. The General Chemical category includes analysis for alkalinity, bicarbonate, calcium, carbonate, chloride, conductivity, hardness (as  $\text{CaCO}_3$ ), magnesium, sodium, sulphate, and total dissolved solids.

The last sample for General Chemical analysis was submitted on **16-Jan-2019**. Sample results indicated that there were no exceedences of the provincial aesthetic objectives for the General Chemical category.

\*Objectives apply to certain characteristics of or substances found in water for human consumptive or hygienic use. The presence of these substances will affect the acceptance of water by consumers and/or interfere with the practice of supplying good quality water. Compliance with drinking water aesthetic objectives is not mandatory as these objectives are in the range where they do not constitute a health hazards. The aesthetic objectives for several parameters (including hardness as  $\text{CaCO}_3$ , magnesium, sodium and total dissolved solids) consider regional differences in drinking water sources and quality.

***Food for thought: A dead thing will go with the stream, but only a living thing can go against it. As a living thing, be not afraid to live your faith. Be not afraid to branch out into the unknown. Be not afraid of the world's view of failure. Be not afraid of what others think or do. Be not afraid to forgive. Be not afraid to lend a helping hand. Be not afraid to love with all your heart. Be not afraid to live your dreams and fulfill your life's mission!***

# In Memoriam

**THOMAS, Clifford William**  
April 5, 1945 – January 13, 2020

It is with profound sadness that the family of Clifford announces his passing at the Regina Pasqua Hospital at the age of 74 years. Cliff was predeceased by his father and mother Gordon and Mary; brother Trevor and nephew Rodney Jr. He is survived by his loving wife Bev of 52 years; three daughters Tammy (Scott), Sandi and her children Darian and Dylan, Jen (Mark) and their children Hayden and Rylen; great-grandson Bennett; brothers Dan (May), Rod (Elsie) and Warren (Jody); sisters Sue (Mike) and Ellen (Harmen); as well as numerous nieces and nephews. Cliff was born in Lestock, SK and grew up on a farm just north of Dysart, SK. At a young age, he left the family farm and worked at numerous gravel and construction companies. He purchased his own truck in 1975 and worked very hard, and often long hours, to follow his dreams of owning his own business. This dream became a reality, and Thomas Sand and Gravel soon became his heart and soul. Years later Bruce's Landscaping Supply Centre was also added to his list of accomplishments. He was the most devoted and loving husband and father to his wife Bev, and their three girls. He worked tirelessly to provide for them. He loved boating, water skiing, snowmobiling and hunting in his younger years. He also loved to travel with his family. Las Vegas was his favourite destination. He would often visit gravel pits during his travels, and talk with other owners and operators. He made many friends and connections this way through the years. Cliff loved his time spent living in Pilot Butte. He was very proud to support the community; including Pilot Butte School, the Pilot Butte Rodeo, and various sporting teams. He was also very generous with his time and was always willing to help anyone in need. His family now takes great comfort in knowing that he is no longer in pain. We would like to thank the nurses and doctors at the Pasqua Hospital, especially the staff of 4B, who were incredibly compassionate during this difficult time. Also a heartfelt thank you to the staff at Victoria Park Personal Care Home for the wonderful care he received over the past three years. At Cliff's request, there will be no formal funeral service. A private family interment will be held. In lieu of flowers, donations may be made to the Regina Humane Society, PO Box 3143, Regina, SK S4P 3G7, or a charity of your choice. Family and friends are invited to sign the online obituary and tributes page at [www.reginafuneralhome.ca](http://www.reginafuneralhome.ca). Arrangements entrusted to

## In memory of Councillor Lorne Beer

It is with great sadness the RM of Edenwold council and staff inform the community Division 4 Councillor, Lorne Beer, passed away December 13, 2019.

Councillor Beer was first elected to council of the RM of Edenwold in fall of 2004, remaining on council through 2009. Councillor Beer was re-elected in 2014 and re-elected again during the 2018 election.

Passionate about infrastructure, community development and prudent with fiscal planning; Lorne worked hard to ensure the responsible development of high-quality infrastructure to stand the test of time across the municipality. He had a strong and well-deserved reputation for truly representing his constituents at the council table and ensuring their needs were being met. He dedicated many years to his service as an RM councillor and continued to work hard in his role through his final weeks.

The relationships Lorne built, the passion he brought to his role and the work he carried out were of great benefit to the municipality and residents and will serve as a legacy for many years to come.

**Thank you for your service,  
Councillor Beer.  
You will be missed.**

### *No Perfect People*

If you believe what you see and hear in the media, you would have the idea that churches are full of angry, judgy people. People who want to tell you exactly what you should think, say and do.

There may be some churches like that, but that was never the idea Jesus had for church.

Jesus was once asked (by a group of people who thought they had it all together) why he "wasted" his time on people with obvious faults instead of hanging out with perfect people like themselves.

He answered those folks by saying "Healthy people don't need the doctor, sick ones do." So he established from the very start that his church is not for people who think are perfect. It's for normal people who feel their life isn't all that it could be. His church is where they find a place they are accepted, appreciated and loved.

If you're looking for acceptance, appreciation and love, we hope you'll visit - just don't expect to find any perfect people here.

## **STRONG Women**

## Nicole's Preschool

Happy New Year everyone! It has been a VERY cold winter so far but it didn't

shake our spirits at preschool. Instead we embraced all the magic and wonders of winter for the entire month of January! The children explored the characteristics of winter, winter activities and the types and habits of animals during this season. For example, does a dog or a gopher hibernate? What animal can play hide and seek (or camouflage itself) the best in the snow? A white rabbit or a brown bear? It was lots of fun finding out the answer to these questions using books, an Ipad or animal figurines to check our guesses! And for those poor

birdies who decided to stick around this winter we decided to make them a cereal bird feeder to hang on our trees at home.

We also learned how polar bears and penguins stay warm. First we placed our hands in a baggie. Next we put the baggie in another bag of lard and submerged our hands in icy water. The lard simulated the animals blubber and helped insulate our hands from the cold!

The month of January ended with a focus on how people stay warm in the winter. The story of "The Three Little Kittens Who Lost Mittens" and the book "The Mitten" by Jan Brett were wonderful springboards to help us examine the topic of winter clothes. We role-played the story sequence, counted, sorted and even used real mittens to paint with!

Until next month stay warm every-

one!

AT HOME WINTER FUN!

\* Make an Ice Sun Catcher!

Go for a nature walk with your child and gather various seeds, pinecones, twigs etc. that you find peeking out from under the snow. Place the

items you find in an old plastic container of your choice with a string gently included (and hanging out a bit) at the top. Freeze outside overnight. In the morning you can remove your Ice Sun Catcher and hang on a tree to admire!

## A Message from the RM of Edenwold

### New Fire Trucks

The RM of Edenwold was proud to contribute to the purchase of two new emergency response vehicles for our local volunteer fire departments. The RM contributed \$28,000 to the Village of Edenwold's new water tanker truck (top photo), and \$60,000 to Balgonie's new fire rescue truck (bottom photo).

We'd like to send an extra big thank you to the members of all five local volunteer fire departments who leave the warm comfort of their homes to serve our communities, no matter what the weather!

### E-Notices

Want to receive tax or utility notices by email? Remember to sign up for e-notices by filling out the Email Consent Form in the Forms section of our website.

### By-Election

A by-election will be held for Division 4 on Wednesday, April 8<sup>th</sup>, 2020, with an advance poll taking place on Saturday, April 4<sup>th</sup>, 2020. Keep an eye on the Elections page on our website for more information.

Interested in running for Council but not sure what's involved? Feel free to contact our office (306-771-2522) or any current member of Council to discuss what roles, responsibilities, and time commitments to expect.

Nomination papers are available on the RM's website under Election Information and must be submitted to the Municipal Office at 100 Hutchence Road, Emerald Park, no later than March 4<sup>th</sup>, 2020, at 4 p.m. Please note that as of January 1<sup>st</sup>, 2020, Public Disclosure Statements are now required to be attached to all nomination forms.

Looking for something new to try this winter? Head to White Butte Trails with your cross-country skis and spend the day exploring the natural beauty of the Trails. The RM of Edenwold was proud to help build a brand new warm up shack to keep skiers going even on the coldest of days. Check out their website: [www.tourismsaskatchewan.com/listings/1004/white-butte-trails-recreation-site](http://www.tourismsaskatchewan.com/listings/1004/white-butte-trails-recreation-site).

Pictured here are Becky Hoehn, Southeast Regional Director with the Ministry of Parks, Culture and Sport, and Gregg Brewster with the Regina Ski Club at the new warm up shelter.

### Reminder -

When clearing private driveways and walkways, do not place snow on roads, ditches or neighbouring properties. All snow should be stored on your property. Thank you!

The Pilot Butte Spray Park Committee and the Town of Pilot Butte have been working hard the last few months reviewing design documents. Final documents were approved in late 2019 and the committee along with the town are excited to officially present the community with the design. Visit the Town Website or Facebook page for more pictures and a walk through video.

Made with PosterMyWall.com

The Pilot Butte Spray Park Committee is looking for sponsors to contribute to the spray park. The cost of the spray park is estimated at \$285,000 and approximately 40% has been fundraised so far. The Pilot Butte Spray Park Committee's goal is to raise the remaining \$170,000 by April 2020 through community events and sponsorship. Please go to the Pilot Butte website- Spray Park to access the sponsorship package.

# Greenall Griffins Update

January in Review | 2020

It is a longstanding tradition at Greenall that the grade 12's play the staff in our annual staff-student hockey game. Teachers and students announce the game and the SLC runs activities between periods. This year there were two teams of Grade 12's and the staff still managed a tie! The final score was 4-4. However, since the staff lost the staff-student volleyball game in the fall, they will need to win the upcoming staff-student basketball game in the spring to fully redeem themselves!

Students in History 30 were learning about the Constitution Act and the Charter of Rights and Freedoms. As part of their study they had the opportunity to have a virtual tour of the Canadian Museum for Human Rights in Winnipeg. Students were able to interact with a guide from the museum and contemplate a number of exhibits.

This winter Physical Education students in Grades 10-12 had the opportunity to visit Mission Ridge. Pictured to the right is Greenall student Raya enjoying shredding the bunny hill!

Sports Medicine student completed a sports taping class at Greenall. Sports taping can support athletic recovery from overuse or other injuries.

We are currently in the middle of Basketball season! There are five teams representing Greenall this year. Last weekend the Sr. and Jr. Boys hosted their home tournament. Check the website for upcoming game times!

## COMMUNITY CLEAN-UP DAY!

The Pilot Butte Beautification Committee in conjunction with the Town will be hosting the 2nd Annual Community Clean-Up Day Saturday, May 9<sup>th</sup>/2020. We're looking for volunteers (both individuals and other non-profit groups) to help the Committee make this event bigger and better. Help your neighbours, family and/or friends to, not only clean up their outdoor spaces, but for this truly community event to be a success we'd also like you to venture into our parks, playgrounds and other public spaces to tidy up Pilot Butte!

Please remember to donate all of your metal items, from aluminum foil, tin cans, metal scraps, old tire rims, etc. to our metal recycling bin. The money we raise stays in Pilot Butte and will be used to further "Beautify the Butte"! If you require assistance for drop off please contact us via email, phone or Facebook messenger. We will make every effort possible to accommodate. More details to follow.

Please follow us on Facebook @ Beautify Pilot Butte. Our email address is: [beautifypb@gmail.com](mailto:beautifypb@gmail.com) and the phone number/contact person for the Clean-Up day is Scott @ 306 781 4795.

**Saskatchewan LOTTERIES**

The **News and views** would like to thank the **Pilot Butte Recreation Board** in conjunction with **Sask**

**Lotteries Assistance Grant**, for ongoing donation to our newsletter. The donation from the Rec Board enables the **News and views** to keep publishing and aids in local sports, culture and recreation advertising. Our continued thanks for the support!

The grant allows expansion of the **News and views** as necessary, with local content, assorted advertising and hopefully making it more appealing and interesting to read.

The **Town of Pilot Butte** also provides financial funding as well as continued support in other ways. The Town has pledged to ensure that the **News and views** will publish, no matter what! Thank you to the Town for their continued support. It takes a tremendous financial worry off of the volunteers!

The **R.M. of Edenwold** also supplies the newsletter with financial funding and we use a portion of these funds to send copies of the newsletters to some R.M. residents.

This financial windfall (for us!) is enabling us to produce a larger, more attractive newsletter for your enjoyment. We hope that we can continue to provide a quality of newsletter that makes us the "must read" item each month.

We truly appreciate the support and could not publish without this funding along with our backpage sponsors.
