Rainout Policy

In the event of a rainout, contact the Director of Parks & Recreation within 48 hours of the scheduled event or full charges will apply. Rainouts will be rescheduled to available fields upon negotiation with the User Group.

Criteria used by the Director of Parks & Recreation to determine if a field or diamond is judged to be unplayable are:

- Visual ponding of water on the surface of the field or diamond;
- Water sponging up around your feet when you walk on the field or diamond.

However, the Director of Parks & Recreation recognizes that certain site specific considerations must also be used to determine if a game may be played during marginal field conditions.

- Age of players.
- No alternate sites.
- Games with teams from out of town.
- Important competition with advance planning.
- Seriousness of game (i.e. playoffs)
- Drainage characteristics of sand or clay based fields.
- Effective communication between user groups and the Director of Parks & Recreation (i.e. phone calls, inspection sheets or written communications).
- Damage to the fields may be charged to the rental group.

Note: The Director of Parks & Recreation may cancel a permit if, in their opinion, the facility is not in suitable condition to use. If for any reason, other than bad weather, you are not able to use the facility at the time for which the permit was issued, the Director of Parks & Recreation must be notified at least 10 business days in advance, enabling them to grant the permit to another organization. User Groups failing to give notice will lose their permit privileges. Organizations, coaches and parents must be made aware of this policy.
